RESEARCH PROJECT

Help facilitate the return to daily activities of youth who have been diagnosed with a brain tumor!

Are you:

☑ Between 15 and 39 years old?
☑ Diagnosed with a pediatric brain tumor?
☑ Not currently receiving cancer treatments?

or

☑ The parent of a young person who meets these criteria?

We would like to know your opinion.

The aim of this project is to put in place means to meet the needs of young brain tumor survivors. In a previous phase, we gathered the points of view of young survivors, parents and caregivers in order to come up with ideas for possible solutions.

Today, we would like to know which interventions you consider as a priority to be implemented.
